

Sirs:

I receive major benefit from my XM Satellite Radio usage. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. When traveling in metropolitan areas, I benefit from Travel and Weather services provided by XM Radio. I am also looking forward to the possibility of having Travel and Weather for my own Pennsylvania Capital Region in the future. I respectfully urge you to prevent the National Association of Broadcasters from succeeding in their efforts to prevent XM Radio from performing this valuable service with their petition # 04-160.

Respectfully,

Lee Hetrick
